

UK-China Agri-tech Innovation Forum – Beijing

1st & 2nd of December 2010

Innovation China UK would like to invite UK companies and research institutes in the Agri-tech sector to take part in the **UK-China Agri-Tech Innovation Forum**

China is the world's largest consumer of agricultural products and is in constant need of new and innovative technologies to fuel its growth. This event will bring together over 100 companies and research institutes from China and the UK and is a great chance to present your technologies, network and exchange ideas on innovation policy in the agri-tech sector

The Programme Will Include:

- A high-level innovation forum with speakers from the Chinese Ministry of Science and Technology, the Beijing Science and Technology Committee, the Beijing Centre for Agriculture and Beijing Technology Exchange Centre
- An opportunity for participants to present their technologies to a targeted audience
- One to one discussions with Chinese agri-tech companies and research institutes
- One day of company visits

The Beijing Commission has provided a list of technology demand from local institutes and companies which enables more effective discussion and partnering (See attached file)

A travel budget of £700 and 3 nights free accommodation will be offered to successful applicants.

To Apply

Please return the attached profile template to Tom Saunders at: t.saunders@qmul.ac.uk by Friday the 24th of September 2010
